

Year 9 Homework Timetable 2017-18

Students at Carter Community School are encouraged to become independent learners. We believe homework supports this. If, for any reason, homework is not set, students are encouraged to spend their 'homework time' reading or undertaking activities on excellent subject-specific websites (to which your teachers will direct you).

Students need to look at what group they are in for that subject and record the subject headings in their planner ready to record the homework each week.
