We are delighted that you will be joining the HegartyMaths platform this year and are confident that if you put in hard work - you will be rewarded and improve at maths. Before you start it’s important you understand our simple philosophy:

**Belief + Hard work + Support = Success**

Let’s start with **Belief**: You need to believe that you CAN DO it! Learning maths is just like learning anything. You need to practise and always put in effort. When it gets difficult (and it will…) you need to remember that millions of people will have had the same struggle you had, but they overcame it by not giving up.

Now for **Hard Work**: Trying your best and always putting in effort is crucial to the process. You need to ensure you attempt all tasks and work hard at maths. Who knows? If you didn’t enjoy it before, maybe this is your chance to change your views of it learn one of the most rewarding disciplines. And if you do enjoy it, then this is a fantastic opportunity to master it.

We will **Support** you: HegartyMaths is totally committed to helping students improve at maths. Whenever you are stuck we hope that we will be there to support you when you need it most.
Go to www.hegartymaths.com & click Student log in.

Enter your school name correctly and select it.

Make sure these are accurate.

Set and confirm your own password. Remember to write it in your maths book and planner!
Has your teacher set you work?

**Yes**

Your homework will be found in the *My Tasks* page.

**No**

You can Search for a task or Choose lesson.

You can view all tasks completed before in *My Scores*.

Click on the task to take it again and try to improve your score.

If you have no tasks you can always Request more from your teacher.
Doing a task

Watch the video carefully taking the best notes you can. Use lots of colour and work hard to follow each example. Replay anything you might be unsure of.

Work on your Building blocks. If you struggle with the video then improving these will help you access the task better. Aim to make all building blocks 100%.

Did you understand the video?

Great homework checklist

I write the title, date and HW for all my tasks
I take full notes from the video
I try to model my work the way I was shown in the video
I use a ruler a pencil for all diagrams
I write every question and full solution in my book
I mark my work as I go
When I get an incorrect answer, I try to correct this in a different colour pen
I write my score in my book at the end of the quiz

What score did you get in the quiz?

100%

Great effort! Why not try the next HW or improve some of your other scores.

70 - 99%

Try the quiz again and work hard to learn from any previous mistakes.

Below 70%

Don't give up. If you have taken full notes of the video, worked on your building blocks and you're still struggling then leave comments for your teacher to ask for help. It's important you make sure you ask your teacher for help to make sure you can eventually get 100%.
Here is an example of a great homework!
FAQ’s

What if I forget my password?

This link will notify your teacher that you need the password reset when they next login.

What device should I use?

HegartyMaths will work on any modern device but we recommend a PC or Mac for the best experience. Tablets work well too.

What browser should I use?

HegartyMaths will work on the latest versions of Chrome, Edge, IE and Safari. We do not support Firefox.

Do I have to watch the video?

In short, yes! The video and the quiz are designed together so that you can be successful. The video will show you how to tackle the majority of the problems assessed in the quiz.

Try and explain to your teacher in a comment what you think is wrong. Submit a question problem report.

What do I do if I think there is a mistake in a question?

How can I contact HegartyMaths?

You can give us feedback on the site using the contact us form.
