

Progress 8

Mr Phillips - Deputy Principal

Recently, you may have seen the league tables published for all local schools. We were delighted to be in the 'top three' for Progress 8 for schools in the Borough of Poole area.

All schools are now judged on 'Progress 8' and this shows how well a student is progressing in 8 subjects compared to all students nationally of the same prior attainment. A school who gets a score of zero is in line with the national picture, a school that scores +0.5 is on average half a grade above students nationally and a school that scores -0.5 is half a grade below national figures.

Progress 8 Measure
